mystery.

The visual arts exhibition features the work of five artists who consider different aspects of the brain: its structure, memory, recovery from stroke or injury, our management of brain health and the history of neuroscience.

"This exhibition adds to our conversation about recent advances in neuroscience as well as a celebration of the wonder and mystery of the brain," said Courtney Gilbert, curator of Visual Arts. "Its complexity and capability are what distinguish us as human beings, shaping who we are as individuals and as species."

Evening exhibition tours are free and open to the public. For more information, visit www.sunvalleycenter.org or call 726-9491.

'WOW' used for 'Books for Babies'

Middle school students organize 'Princess and Prince Party'

BY TERRY SMITH

Express Staff Writer

The National Junior Honor Society at Wood River Middle School has decided to use its WOW money for a "Books for Babies" program. "This a great gift to children and families to increase early literacy in our community," honor society advisors Angela Barbie and Kelsey Atkins stated in a news release. Furthermore, the American Academy of Pediatrics recently recommended that parents read to babies beginning at birth.

The WOW money comes from the Wood River Foundation, which each year gives every student in Blaine County \$25 to support a non-

profit organization or charitable activity.

The Middle School students are using their WOW money to organize a "Princess and Prince Party," for boys and girls age 3 to 10, to raise money for "Books for Babies."

The party will be held from 1-3 p.m. on Saturday, March 7, at the Wood River Middle School cafeteria. The cost for each "princess and prince" to attend is \$10. The event will include games, crafts, nail and face painting and cookie and crown decorating.

Money raised will be given to The Community Library in Ketchum, which will provide a gift bag with a brand new board book, in English or Spanish, to every infant born at St. Luke's Wood River Medical Center.
